

A visit from a gigolo

When you look up the word Gigolo on the internet you'll see the website of René between companies who have gigolo's as well. René is an independent gigolo who can be reached and hired via his mobile phone on a 06-number. We from the Women magazine Oer Digitaal called with René and discussed the conversation below with him.

Can you tell something about yourself?

I am a 38 year old white male with an hbo- education.

Do your friends and family know that you're working as a gigolo?

No this work is a bit of a taboo. We live in a modern country but this is still not possible.

Do you have a partner?

No. I think a partner would have difficulties with this. If I were to engage in a new relationship, I would tell her that I do this work and if she would want me to stop, I would stop.

What kind of women hire you?

The average women of the Dutch society, low and high educated. The number of single high-educated women, I think, is higher but I am not often called or mailed by this group. The women who hire me are sometimes divorced, sometimes single, but there are also women with a partner. Sometimes I am called by couples as well.

What is the ethnical background of these women?

95% of these women are so called of domestic origin. The other 5% have the origin of South-Americans, Dutch Antilles, Suriname-black women and Suriname-Indian women.

And the couples?

These are also of domestic origin.

What is the age of the women you visit?

This varies between the age of early twenties and above fifties. The average age has an age of thirty-five years old.

Can these women not easily get a one night stand?

This is not a problem, but they do not want a man from the bar. They do not feel comfortable with this. They do not look forward to the contact they have to have afterwards, and have the feeling that they can get more out of me.

How old are the couples that contact you?

They are between the age of 35 and 55 years.

What are the costs for a visit from you?

I always as a 150 euro's for both the individuals and couples. Average this usually becomes 175 euro's.

Who can spare this amount?

Women who have a low education cannot spare this amount on a monthly basis, but even they hire me. Most of the couples have a higher income.

Do you have a fixed Group of women you visit?

Some women I visit once in 4 to 6 weeks. With a larger group this happens twice or three times a year.

What about couples?

There is a small Group where I come three times a year.

How long does a visit take?

Usually four hours. We start with a cup of coffee, followed up by a relaxation massage to take the tension away and this is followed up by an erotic massage. Then the sexual contact occurs. Then we take a break and after the break sexual contact happens again. Sometimes it even happens three times. With couples I am usually first intimate with the woman, while the man is watching and later on this becomes a trio.

How do you come to an appointment with a client?

I do not get called often. Most of the time we have email contact about the wishes, the price and the date. 30% of the women and couples send me a picture in advance.

Did it happen that you were not attracted by a client on physical level?

This has not yet occurred. I see something beautiful in every woman. Sizeable or slim I don't care. In general, the women that contact me thing that hygiene and courtesy are more important. I do get 'vulgar' emails but I do not react to these. What did happen once was that a man belittled his partner. I do not like this at all and that's why a second appointment also did not happen.

Do you kiss your clients?

This is up to them, but I have no problem with it.

Do you keep safe-sex in mind?

Yes I always use a condom, but no dental dam. I do get tested on a yearly basis on STD's.

Have you ever experienced a strange wish on the area of sex from a woman or a couple?

No, but I tell in advance that I am not up for doing strange things.

Why do you do this job?

A lot of women do not experience a lot of pleasure when it comes down to sex. I want to allow them this pleasure and I want to have my share in it. Many women who call me have problems with intimacy, sometimes because of a relationship. Because of this they have a lot of obstacles and hope that with me these obstacles will be taken away.

How often do you do this job?

Twice a week. This I do next to my regular job.

Why do you work independently?

I do it for fun and do not want to be tied up to an organization.

Do you have contact with other gigolo's?

No, I do not know anyone else who also does this job.
